In general, I am satisfied with the offered functionalities of the Teacher Panel		x			
In general, I am satisfied with the visualization of the data concerning the assessment		x			
In general, I am satisfied with the visualization of the data concerning the grouping		x			

Please summarize your general opinion on the Teacher Panel functionalities, indicating any issues you encountered

I find it interesting to see the evolution and results of student activities. It makes it easy to keep track of them, as well as preparing groups and other things to prepare for classes.

What other functionalities not integrated to the Teacher Panel would be interesting for you?

It could integrate assessment activities based on the exercises done, with the option of also recording audio.

Please indicate any final thoughts/recommendations

It would be good to include a forum to talk to students and share questions.
